Dear GIS Families,

We welcome the opportunity for parents and family members to join their children for lunch here at school. Adults may purchase school lunch for $3.00. Parents are also welcomed to bring lunch from outside to the school to share with their children. The tables in our entry foyer are reserved for students who have guests for lunch. We want to remind our families of the school policy found on page 14 of the Student Handbook that limits parents to bringing meals from outside of the building for their child only. Children of parents who bring food from outside of the school may invite up to two guests to have lunch with them, but the guests must consume only food from our cafeteria. We understand this policy may be disappointing to our students who want to bring to school special lunches and treats to celebrate special events. We sincerely regret any disappointment this policy may cause. However, student safety and learning must be at the center of everything we do. The prevalence of food based allergies in our student population necessitates this restrictive policy.

Thank you for your understanding and cooperation as we strive to make school a safe place for everyone.

Respectfully,

James A. Bever
Principal
